

KAPPA SUBWOOFERS

8" (200mm), 10" (250mm) and 12" (300mm) high-performance car audio subwoofers

More performance. More flexibility.

Looking for a more moving audio experience? Take Infinity car audio for a ride. Innovative materials and breakthrough engineering have always put Infinity products out in front of the competition. So expect extreme output from Kappa subs, but be prepared for accuracy and detail that may simply blow you away. The Kappa Series subwoofers feature SSI™ (Selectable Smart Impedance), a HARMAN-exclusive impedance selector, that lets you choose a 2- or 4-ohm impedance at the flip of a switch. Our proprietary aero-cooling design keeps the voice coil cool while optimizing power handling and long-term reliability. And, the acoustically damped glass-fiber cones have been engineered to minimize distortion and unwanted artifacts. More performance. More flexibility. You get both when you step up to a Kappa subwoofer.

Features

- ▶ SSI™ (Selectable Smart Impedance)
- ▶ Oversized aero-cooled voice coil
- ▶ Acoustically damped glass-fiber cone
- ▶ Premium screw-down terminals

KAPPA SUBWOOFERS

8" (200mm), 10" (250mm) and 12" (300mm) high-performance car audio subwoofers

SSI™ (Selectable Smart Impedance)

Most car audio system designs call for 2- or 4-ohm impedance. Kappa Series subwoofers put the choice in your hands. A proprietary HARMAN technology, SSI lets you reconfigure your system by simply flipping a switch.

Oversized aero-cooled voice coil

The Kappa Series voice coil employs a two-sided, ducted airflow design that cools the voice coil, increases power handling and improves reliability. This aero-cooling design is unique among aftermarket subwoofers.

Acoustically damped glass-fiber cone

Kappa subwoofer cones incorporate glass-fibers for exceptional accuracy and detail. Inherently non-resonant, the glass-fiber cones eliminates distortion so your music—and nothing but your music—comes through loud and clear.

Premium screw-down terminals

Power is the lifeblood of any subwoofer. The terminals on the Kappa subwoofers accommodate up to 8-gauge wire (8.37mm 2 cross section), which transfers low-resistance, low-loss power to the woofer, even over long wire runs.

What's in the Box

- 1 x subwoofer
- 1 x foam mounting gasket
- Owner's manual

Product specifications:

800W

8" (200mm) high-performance car audio subwoofer

- ▶ Power Handling: 400W rms; 1600W Peak
- ▶ Sensitivity (@ 2.83V): 89dB
- ▶ Frequency Response: 34Hz - 200Hz
- ▶ Voice Coil Diameter: 2" (51mm)
- ▶ Impedance: 2 or 4 ohms, switch selectable

1000W

10" (250mm) high-performance car audio subwoofer

- ▶ Power Handling: 450W rms; 1800W Peak
- ▶ Sensitivity (@ 2.83V): 90dB
- ▶ Frequency Response: 30Hz - 175Hz
- ▶ Voice Coil Diameter: 2" (51mm)
- ▶ Impedance: 2 or 4 ohms, switch selectable

1200W

12" (300mm) high-performance car audio subwoofer

- ▶ Power Handling: 500W rms; 2000W Peak
- ▶ Sensitivity (@ 2.83V): 91dB
- ▶ Frequency Response: 25Hz - 175Hz
- ▶ Voice Coil Diameter: 2" (51mm)
- ▶ Impedance: 2 or 4 ohms, switch selectable
